

Combined Asthma and Anaphylaxis

22556VIC Course in the Management of Asthma Risks and Emergencies in the Workplace
22578VIC Course in First Aid Management of Anaphylaxis

Overview

This course has been designed to meet the requirements of those working in the education and child development sector, but is suitable for anyone who may have the responsibility of managing the first aid of an individual with anaphylaxis or asthma.

It provides the skills and knowledge required to recognise and respond quickly in an anaphylaxis or asthma emergency, as well as looking at how to use asthma and anaphylaxis action plans, how to effectively use prescribed medications for these conditions and how to conduct an anaphylaxis/asthma risk assessment for the workplace/education setting.

Course Duration

St John offers the following options:

- 6 hours face-to-face workshop: this is full face-to-face course and participants are required to attend the full session.
- Assessment focus: This course is for those who are confident in their skills and only want to complete the assessment.

Certificate

On successful completion of this course you will be issued a statement of attainment in:

- 22556VIC Course in the Management of Asthma Risks and Emergencies in the Workplace
- 22578VIC Course in First Aid Management of Anaphylaxis

Course Outline

The course covers the following:

- Legal considerations/infection control
- What is asthma and anaphylaxis?
- Preparing for asthma and anaphylaxis episodes in the workplace
- Workplace asthma emergency management plans
- Individual anaphylaxis management plans
- First aid response to asthmatic emergencies, allergic reactions and anaphylaxis

Assessment methods

A successful outcome for this statement of attainment will be determined by a range of different methods including written assessment, observation of simulated and practical activities, etc.

Delivery by St John RTO Partners
