Caring for Kids

Course Duration Options:

- 3 hours

St John References:
CFK

Overview

Caring for Kids is designed for delivery to parents, grandparents and carers of young children up to the age of 12. This nonaccredited course is delivered in a relaxed environment with no assessments, but plenty of hands-on practice for relevant first aid techniques. The topics covered in this course include managing unconsciousness, choking, bleeding, burns, respiratory distress and anaphylaxis, with time set aside to cover the topics you choose as well.

This course has been developed in recognition of the special needs of the injured child as opposed to the general first aid principles covered in other first aid training.

Course Content

The course covers the following:

- Basic life support and emergency number (000)
- Airway management
- Cardiopulmonary Resuscitation (CPR) in children
- Recognition and treatment of anaphylaxis and asthma
- Bleeding and wound management
- Burns
- Other topics as decided by the group

Competencies

A Statement of Attendance - Caring for Kids is issued.

Provided Training Materials

- Personal protective equipment (for use in the course).

Pre-requisites

Participants with a language or literacy difficulty or other special needs should inform the training support staff or trainers so appropriate assistance can be arranged.

Please advise the course facilitator prior to course commencement if there are any topics to which you may be sensitive.

Certificate Renewal

St John SA recommends attendance at training on a regular basis to refresh first aid knowledge and skills and confirm competence to provide first aid. The Australian Resuscitation Council (ARC) www.resus.org.au recommends the CPR competency be recertified annually.

Please be familiar with any requirements in your own industry and/or organisation.
